RECOMMENDATIONS

✓ Focus on Sales Department

Improve workload balance, provide career growth opportunities and increase engagement activities.

✓ Support Early-Career Employees

Introduce mentorship programs and skill development for the 18–25 age group.

✓ Review Compensation & Benefits

Ensure competitive pay and benefits, especially for high-risk job roles.

✓ Enhance Employee Engagement

Conduct regular feedback sessions and build a more inclusive work culture.

29.85%

KEY INSIGHTS

1. Overtime Employees Show Higher Attrition

Employees who work overtime have a higher attrition rate (29.9%) compared to those who do not (10.4%).

2. Higher Job Satisfaction Reduces Attrition

Employees with higher job satisfaction (Level 4) show the lowest attrition rate (8.4%), while Level 1 has the highest (24.6%).

3. Work-Life Balance Matters

Employees with poor work-life balance have the highest attrition (28.7%), with excellent balance have the lowest (8.9%).

4. Short Tenure Employees Are More Likely to Leave

Employees with less than 1 year of tenure have the highest attrition rate (34.2%).

RECOMMENDATIONS

✓ Reduce Overtime Workload

Optimize resource allocation and set clear work boundaries.

✓ Invest in Early-Career Development

Provide training, mentorship and clear career paths for lower job levels.

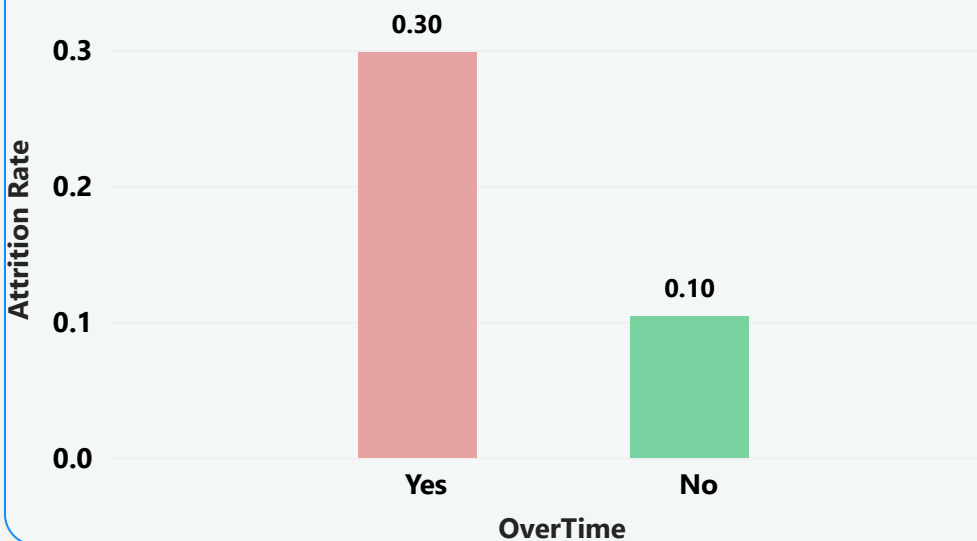

✓ Increase Job Satisfaction

Recognize performance, offer growth opportunities and improve manager support.

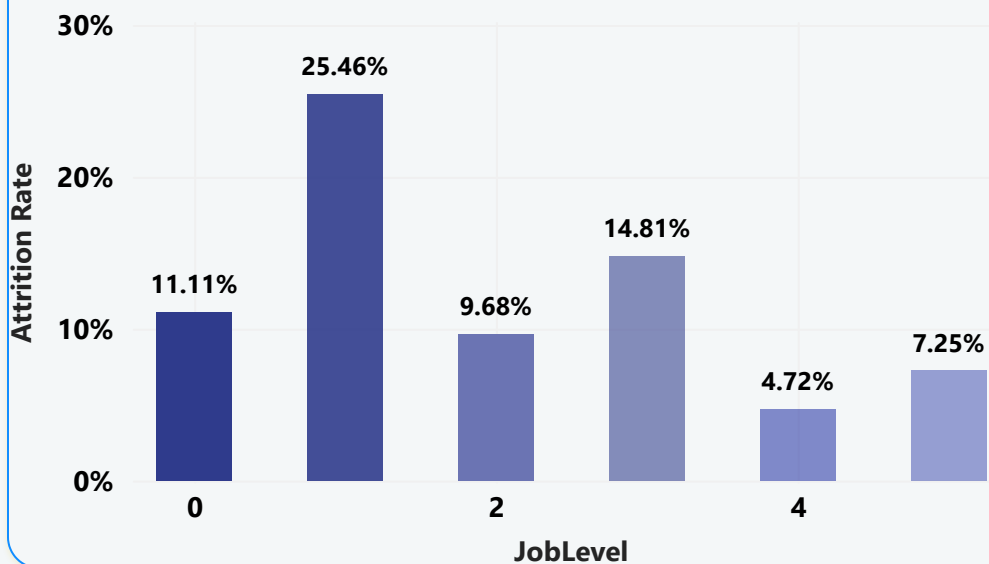

✓ Improve Work-Life Balance

Flexible work options, wellness programs and reasonable shift planning.
